

# CLOUD ADMINISTRATION TOOLS

## RELEASE NOTES

PV 520 SV 101

## CLOUD ADMINISTRATION TOOLS RELEASE PV520 SV101

The theme of this release is a minor enhancement to the documentation for installation guidance.

### RELEASE DATE

September 25, 2020

### DEPLOYMENT

- If your environment matches the following criteria, all installation, setup and configuration of Cloud Administration Tools is performed by OneStream Cloud Support Team. Contact OneStream Support for assistance.
  - Platform version 5.1 or below
  - Utilizing User Management Console
- All others can install Cloud Administration Tools without Cloud support assistance.
- It is recommended to perform an Uninstall UI before installing this version of Cloud Administration Tools. See the Instructions document for deployment details.

### FIXED

- Deleting a database using the automated cleanup process now properly retains database tags. Also, existing database tags are no longer cleared when applying new database tags. (22238)

### CHANGED

- Documentation Update for installation process.

### KNOWN ISSUES

- None
